

# What is an umbrella company?

An umbrella company employs temporary workers/contractors who work on short term assignments for various end clients or recruitment agencies. An umbrella company will process your payments with Tax and National Insurance deductions as normal. You may also be able to reduce your tax liability by claiming for your legitimate business expenses which helps to maximise your take home pay.

## Our relationship with you...

Focused are the Limited Company who supply your agency/end client with your services. Should you choose us, you would become a PAYE employee of Focused.

## How can I join?

Call our Contractor Specialist Team on 01732 897 549 for a free personalised quotation of your take home pay, allow a member of the team to walk you through the Focused process and establish the best option for you. There are no joining or leaving fees to take into consideration and we will liaise with your agency to confirm rates and assignment details.

Additionally you can email the team at [info@focusedgroup.co.uk](mailto:info@focusedgroup.co.uk)
