

Gender Pay Gap Report 2025

We are an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. Gender pay gap reporting legislation requires that from 2017, any organization that has 250 or more employees must publish and report specific figures about their gender pay gap. The gender pay gap is the difference between the average earnings of men and women, expressed relative to men's earnings.

Written statements

We employ thousands of UK contractors across many different sectors. Our employees source the majority of their assignments through recruitment agencies and often negotiate contract rates directly with the recruitment agency. Rates of pay can vary significantly dependent on the sectors and roles they engage in and, as a result, the published results above are affected by the mix of employees across these various sectors and roles. We confirm that the calculations in our report are accurate and have been calculated in accordance with Gender Pay Gap Reporting requirements as outlined in the legislation and accompanying guidance.
